

Geoinformatics for Environmental Sustainability

Association and Contributions

Associates and Contributors

Scholars and qualified persons who contributed actively in the **Geoinformatics and Environmental Sustainability** project are as follows

- 1) Prof. Atish Dipankar Jana - Ph.D. (Physics)
- 2) Prof. Sugata Hazra - Ph.D. (Geology)
- 3) Prof. Dulal Das - Ph.D. (Geography)
- 4) Prof. R.D. Garg - Ph.D. (Civil Engineering)
- 5) Dr. Anirban Mukhopadhyay - M.Sc. M.Tech. Ph.D. (Remote Sensing Technology)
- 6) Dr. Sandip Mukherjee - M.Sc. (Geography), M.Sc (Geoinformatics), Ph.D.
- 7) Mr. Niladri Naha – M.Tech. (Civil Engineering)
- 8) Mr. Subrata Halder – M.Tech. (Civil Engineering), Research Associate (IIT-Kaharagpur)
- 9) Mr. Subham Mukherjee - M.Sc. (Ecohydrology), M.Sc. (GIS-CDM), MSc (RS&GIS)
- 10) Mr. Arun Mandal (M.Sc Geography, M.Sc. Geoinformatics, Research Associate in IIT Roorkee)
- 11) Mr. Arunjyoti Maity - B.Sc. (Physics), B.Tech. (Metallurgy)
- 12) Mr. Bhaskar Barman - M.Sc. (Geography)
- 13) Mr. Sayantan Jana – MCA
- 14) Mr. Kuntal Parbat - BCA

Voluntary association

The external contributors are freely invited to be associated in the programme in the ways defined below

The Educational Institutions

The Educational Institutions who have interested to implement this programme in their schools may contact the Geomatics authority for launching the programme in their schools.

As the programme is prepared initially to be executed with the students' communities, the schools or the educational institutions are preferred for the associations. The certificate of association will be conferred after successful contribution in this programme with the students.

The Developers

The developers who are interested in GIS programming having prior knowledge in Geoportal Development may be associated with us to contribute in this programme in free lancing association. The certificate of association will be conferred after successful contribution in this programme.

The Geographical Analysts

The Geographical Analysts who have prior exposure in Geospatial Industry with respect to Digital Cartography, GPS-DGPS Survey and Photogrammetry may contribute in this programme on the freelancing basis. The certificate of association will be conferred after successful contribution in this programme.

The Educators

The Educators namely Professors, Teachers or Instructors who have prior knowledge of educating people preferably in Geoinformatics, Geography, Environmental Science, Geology, Computer Science and allied disciplines, Mass Communication and Education may be associated in this programme on freelancing basis. Though educators are not restricted for any disciplines they can contribute from any disciple suitable in this programme. The certificate of association will be conferred after successful contribution in this programme.

The Technologists

The Technologists whether Geospatial Technologists or Environmental Technologists having association or exposure in the concerned field may approach for contribution in this programme on freelancing basis. The certificate of association will be conferred after successful contribution in this programme.

The Students and Interns

The Students and the Interns who are pursuing the higher degrees in the concerned disciplines may approach for their internship in this programme. They may contribute with their innovative concept and assimilate the knowledge from the concerned programme. The certificate of association and contribution will be conferred after successful contribution in this programme.

The NGOs

Any NGO or the social trust who are very interested in collaborative works having prior exposure in the environmental or social works may approach for the collaboration in this programme. The certificate of association and contribution will be conferred after successful contribution in this programme.

The Corporates

The corporates who are interested to launch the CSR programme related this one and who have the products or the services in the related fields may approach for the association in this programme. The certificate of association and contribution will be conferred after successful contribution in this programme.

The Scholars or Researchers

The scholars or researchers from any disciplines or who have special interests in this programme related with their research topics may be associated in the same for the knowledge and the scientific activities related with their disciplines. The certificate of association and contribution will be conferred after successful contribution in this programme.

The Sponsors

The financial sponsors are invited to fund this intensive socio-technical project. The financial sponsorship will be executed on the legal terms of association and the agreement between the organizers and the sponsors. The sponsorship will be published through the Geomaticx web portal after the successful association.

N.B. It is being mentioned that the association and the contribution are subject to the agreement on terms and conditions between the organizers and the associates.
